Lesson 1. Travelling around the world

After short introductions, we are going to talk about your travelling experience and discuss the stories of other travellers. You will boost your vocabulary and learn how to describe the sights and places you visited.

Lesson 2. Good food, good mood

There are plenty of food-related words in this lesson: you are going to share your stories of eating out, talk about food you have tasted in other countries, refresh the "cooking" vocabulary, and a lot more.

Lesson 3. Home, sweet home

Have you ever moved to a new house? How about redecorating? Have you ever seen unusual places where people live? Let's talk about our homes and brush up the vocabulary related to things around us in our flats.

Lesson 4. Technology in our lives

In this last lesson, we will be discussing the advantages and disadvantages of using "smart machines" in our daily lives: you'll learn the vocabulary related to mobiles, office and domestic machines and laugh at the stories of mishaps that can happen when the technology plays up.
